

OREGON AVENUE RECONSTRUCTION PROJECT

Dear District Resident,

On March 2, 2021 (weather permitting), construction activities will switch to from the park side to the residential side of Oregon Avenue, between Tennyson Street and Oregon Knolls Drive and will include the following activities:

- Installation of traffic maintenance measures
- Reconstruction of the Southbound lane (residential side) of Oregon Avenue
- District of Columbia Power Line Undergrounding (DC PLUG) work
- Construction of sidewalk and driveway aprons
- Construction of Low Impact Development (LID) bioretention devices

Access to the residences along Oregon Avenue will always be maintained, unless notified and coordinated within a minimum of 48 hours in advance.

Detour: Traffic attempting to travel southbound on Oregon Avenue will follow the specified detour and associated signage to regain southbound access to Oregon Avenue (Map attached). Traffic controls and signage will be in place to safely guide all motorists through the work zone. Motorists are urged to use caution as they travel in these areas, anticipate moderate delays and be mindful of pedestrians and construction personnel.

Exact Time and Location: The construction activities will take place on the residential side of Oregon Avenue between Tennyson Street and Oregon Knolls Drive, behind the concrete barrier, from 7:00 am to 7:00 pm, Monday through Saturday.

Residents: Although the roadway may be blocked to thru traffic at times, access to your driveway will always be maintained. If you are restricted from leaving or returning to your driveway, please notify the nearest flagger, who will coordinate safe access.

Our goal is to keep you abreast of traffic modifications and milestones while providing open communication with the construction outreach team. Please feel free to visit the website at www.oregonavenueproject.com for the most recent project updates or email us at info@oregonavenueproject.com
